ELI ROHITH SRI GANESH

Software Development Engineer | Java & Cloud Backend Developer

+91 7842688589 | rohitheli4444@gmail.com | Portfolio | LinkedIn | GitHub | LeetCode | Hyderabad / Bengaluru, India

PROFESSIONAL SUMMARY

Final-year B.Tech graduate in **Artificial Intelligence & Data Science (2026, 8.25 CGPA)** targeting Software Development Engineer (SDE) and Java Backend roles. Proficient in **Java, Spring Boot, Object-Oriented Programming (OOP)**, REST APIs, and relational database systems. Strong analytical foundation with **100+ LeetCode DSA problems** solved and certified with an official **AWS Educate Credly Badge**. Demonstrated ability in **team collaboration, effective communication, and Agile sprint workflows**. Dedicated to building robust backend solutions and contributing effectively within fast-paced engineering teams.

TECHNICAL SKILLS

Programming Languages: Java (Core, OOP, Multithreading, Streams), Python, C, JavaScript (ES6+), SQL
Web & Frontend: HTML5, CSS3, JavaScript, React (Basics), Responsive Web Layouts, RESTful Client Integration
Backend & Frameworks: Spring Boot 3, RESTful APIs, Spring Data JPA, Hibernate ORM, Microservices, Swagger/OpenAPI
Cloud, DevOps & CI/CD: AWS (EC2, S3, IAM — Verified Credly Badge), Docker, CI/CD Pipelines, Flyway Migrations, Render
Concurrency & Security: Pessimistic Locking, ACID Transactions (@Transactional), Idempotency Keys, JWT, Spring Security (RBAC)
Databases & Tools: MySQL (Schema Design, Indexing, Query Optimization), Git, GitHub, Maven, Postman, JUnit 5, Linux/CLI
Core CS Fundamentals: Data Structures & Algorithms (DSA), OOP (SOLID Principles), Operating Systems (OS), DBMS, SDLC & Agile

WORK EXPERIENCE

Machine Learning Intern | Skill Craft Technology — Sep 2025 – Oct 2025

- Constructed ETL preprocessing pipelines for **5,000+ tabular records** in **Python (Pandas, NumPy)**, eliminating missing data and normalizing feature sets.
- Evaluated and benchmarked **3 supervised ML models** (Decision Trees, Logistic Regression, SVM), achieving **92% classification accuracy** with ROC-AUC validation.

Java Full Stack Developer Intern | EduSkills Foundation (AICTE-backed) — Apr 2025 – Jul 2025

- Developed **8+ modular backend REST API endpoints** with **Java 17, Spring Boot**, and **MySQL** adhering to N-tier Controller-Service-Repository architecture.
- Implemented relational data models across **5 database entities** and preserved transactional integrity with **Spring Data JPA** and **Hibernate ORM**.
- Validated **100% of API contract payloads** with **Postman**, authored **15+ unit tests** in **JUnit 5**, and tracked deliverables across **4 Agile sprint cycles**.

FEATURED ENGINEERING PROJECTS

AI-Based Credit Risk Assessment & Loan Approval System [GitHub | Live Demo] — Jan 2026 – Apr 2026

Tech: Java 17, Spring Boot 3, MySQL, Spring Security, JWT, Flyway, Docker, Render

- Engineered an algorithmic financial decisioning engine assessing creditworthiness across **10+ risk parameters** and DTI ratios in **under 200ms**.
- Secured **12 REST endpoints** via stateless **JWT authentication** with 2-tier RBAC (ROLE_ADMIN, ROLE_CUSTOMER), executed **4 Flyway migrations**, and containerized with **Docker**.

Digital Wallet & Concurrency P2P Payment Engine [GitHub | Live Swagger] — Feb 2026 – Mar 2026

Tech: Java 17, Spring Boot 3, MySQL, Spring Data JPA, Pessimistic Locking, JUnit 5, Swagger UI

- Architected a high-throughput peer-to-peer (P2P) ledger API processing concurrent transfers in **sub-150ms latency** while eliminating double-spending via **Pessimistic Locking (SELECT ... FOR UPDATE)**.
- Enforced ACID consistency with **@Transactional** rollbacks, integrated **Idempotency-Key** headers, and achieved **100% pass rate across 12 concurrency test cases** in **JUnit 5**.

Student Management System [GitHub] — May 2025 – Jul 2025

Tech: Java 17, Spring Boot, MySQL, Spring Data JPA, Hibernate ORM, RESTful APIs, Postman

- Delivered an N-tier backend service supporting **500+ student profiles** across **15+ course enrollment workflows**.
- Authored **6 transactional CRUD endpoints** with **Spring Data JPA** exception handling, verified across an interactive collection of **20+ Postman requests**.

EDUCATION

Swarnandhra College of Engineering & Technology — B.Tech, Artificial Intelligence & Data Science — **2022 – 2026 | CGPA: 8.25 / 10**
Bhaskara Junior College — Intermediate (MPC) — **2020 – 2022 | 78.1%**
Bhashyam English Medium School — Secondary School Certificate (SSC) — **2020 | 91.67%**

CERTIFICATIONS & ACHIEVEMENTS

- **AWS Educate:** Cloud Architecture & Fundamentals — Verified Credly Digital Badge (Amazon Web Services).
- **NPTEL (IIT Kharagpur):** Programming in Java — Elite Certificate (Scored in top tier).
- **Infosys Springboard:** RESTful API Design & Architecture Professional Certificate.
- **Google / Coursera:** Google Data Analytics Professional Certificate.
- **LeetCode:** 100+ algorithmic problems solved across Arrays, Dynamic Programming, Hash Tables, and Two Pointers.
